4- How was your overall experience? Any comments / suggestions?

Liked Mark Robinson and Ruud Teunissen best.

I liked it very much. The several presentations indicated very well new points of attention w.r.t. the world of the "cloud" and certainly will encourage the audience to be alert but also perhaps less afraid for the "cloud".

Perhaps it is a suggestion to finish with a short wrapup session. Was it complete? What do I take home? Raises it new questions? Which subject was missing?

Prima avond!
Bedankt

De lokatie was erg goed, de presentaties inspirerend.

Verry interesting

Presentaties over crowdsourcing (Maxim Schram) en documentatie (Mark Robinson): prima.

Presentatie testen(Tuud Teunissen): uitmuntend

Goede onderwerpen, nuttige informatie, goede sfeer, prima netwerkgelegenheid.
